Required contents for a Low Voltage Directive EC Declaration of Conformity (DoC)

The following is an extract from the EC Low Voltage directive 2006/95/EC:

EC declaration of conformity

The EC declaration of conformity must contain the following elements:

- name and address of the manufacturer or his authorised representative established within the Community,
- a description of the electrical equipment,
- reference to the harmonised standards,
- where appropriate, references to the specifications with which conformity is declared,
- identification of the signatory who has been empowered to enter into commitments on behalf of the manufacturer or his authorised representative established within the Community,
- the last two digits of the year in which the CE marking was affixed.

Note

• The above text is an extract from the directive and is intended to give guidance on the main requirements. However, the directive has many parts, which are not reproduced here and may impose additional requirements.
